Officials: Crime rate unchanged by gaming

BY MARY G. SEILEY

Two top local law enforcement officers said Thursday the advent of gambling has not increased crime in Hancock County.

Sheriff Ronnie Peterson said while he had been one of the most apprehensive local officials about the possibility of casinos generating crime, his worst fears have gone by the wayside.

"I anticipated a lot more problems, but we didn't have them, so far," Peterson told the Hancock County Tourism and Gaming Association.

Dave Stepro of the Waveland Police Department, and chief of the countywide Drug Task Force, echoed Peterson's sentiments.

Bay St. Louis Police Chief Frank McNeil did not appear -- a communications snafu was blamed for his absence.

Peterson said murders, burglaries, thefts and armed robberies all have declined in the county since gambling hit the scene over a year ago. The only increased crime has come in the form of credit card fraud, he said, and there has been a hike in traffic accidents.

On the plus side, he said, the traffic represents increased activity for area merchants, and the revenues that the casinos are funneling to area governments will help fund more public law enforcement, with better equipment and training.

Peterson said he's lost perhaps 10 personnel to casino security forces over the past year. That trend should bottom out soon, he said, when he's able to hike his personnel pay rates.

Meanwhile, the combined security forces of Casino Magic in Bay St. Louis and Jubilee Casi-

no west of Waveland total about 161, he said, more than the three law enforcement agencies within Hancock County.

Peterson said casinos have been diligent in trying to keep "undesireable" elements out of their facilities, because the casinos are so profitable that they have no desire to jeopardize their licenses with illegal activities.

Stepro said Hancock County had a drug problem before gambling was established here, and it continues to have a problem.

On the positive side, however, he said the increase in employment that the casinos sparked has led to a drop in drug-related burglaries: not so many people need to steal to get money for drugs, he said.

Peterson told the audience he

J&R seeks county o.k. to operate ambulances

BY MARY G. SEILEY

Officials of J&R Ambulance Service knocked hard on Hancock County's doorway Thursday, promising to offer better service and a lower price than Mobile Medic Ambulance Service.

"For what you're paying now ... we can give you more," said J&R's Catherine Williams. She said her company hopes to vie for the 911 service contract from the county in July. Meanwhile, her company wants to be allowed to compete with Mobile Medic for private non-emergency ambulance business within the county.

Mobile Medic's top two officials responded with fury, saying J&R's representatives are both former employees of Mobile Medic, who are making

"totally inaccurate ... erroneous statements" in a series of appearances in Hancock and Harrison counties.

Mobile Medic has operated in Hancock County since 1974. John Rester, president and CEO, and Steve Delahousey, vice president of operations, said Thursday their company has not failed to provide top service during 20 years.

"Where were they in 1974 and 1975 and 1976, when there was no growth and nobody wanted to come into Hancock County?" asked Rester.

He said J&R has no track record in any county providing 911 service, and he charged that J&R merely wants to siphon off the most profitable portion of operating in the county: non-emergency patients

who need transportation to medical facilities.

Williams made an extended presentation to board of supervisors members, saying her company isn't allowed to compete in Hancock County under terms of an ordinance now in effect. She asked that it be amended or withdrawn, to allow her firm to offer non-emergency service immediately.

She said her company plans to compete for the 911 service contract in July, and will offer three, Hancock-based emergency vehicles. Williams also said J&R will make Hancock Medical Center its base of operations, to fully utilize the local medical facility.

World Day of Prayer proclaimed here Tues.

The cities of Bay St. Louis and Waveland have proclaimed Tuesday, January 25 a "World Day of Prayer" to end the fighting in Bosnia, according to spokesmen for both cities.

"People banning together in prayer for a common cause, praying for world peace and an end to violence, may be our only hope because prayer is the most powerful act known to the human race," read the Bay St. Louis proclamation.

"I ask that all Waveland citizens lend their prayers to those of the people around the world to end the conflict in Bosnia..." stated the Waveland document.

At St. Clare Catholic Church in Waveland, Adoration of the Blessed Sacrament will begin after 7 a.m. Mass on Tuesday and will end with Benediction at 1:30 in commemoration of the Day of Prayer.

Waveland privatizes garbage pick up

BY AMY PICKICH

Waveland will soon privatize garbage pickup in the city, as the board of aldermen voted Wednesday 3-1 to exercise their option as a member of the Solid Waste District to join a two-year garbage collection agreement.

Waveland is a member of the tri-entity district with Hancock County and Bay St. Louis. As a member, Mayor Stella Frilot said garbage collection will be cheaper than if the city were to continue to do it.

The mayor said the cost for the private service will be approximately \$10,881 a month, a savings of some \$140,000 annually to the city.

Frilot said the reason the city joined the district was to get the best price. She added the price may be reduced further as Pearl River County has shown an interest in joining the district.

Ward 4 Alderman Stan Weidman voted against the matter.

He said some of his concerns include: the fact that he has not seen the final contract and that there has been no public input, the seniority and retirement of long-time employees and the

public bid on the city's garbage trucks.

The tri-entity agreement between Hancock County, Bay St. Louis and Waveland is part of a waste reduction mandate by the state Frilot said. The private contractor will be bonded.

Frilot said garbage service will be the same, only simplified. There will also be rubbish pickup.

After the meeting, the mayor said the solid waste board may also put out contracts for recycling in the future, which Waveland could be a part of as a member of the district.

Frilot said current sanitation employees will be hired by the new contractor at a higher rate than the city has been paying, and two employees will be retained.

Waveland sends civil service bill to state legislature

BY AMY PICKICH

The Waveland Board of Aldermen passed a draft of a plan Wednesday for a civil service local and private agreement.

The bill will be sent to the state legislature for approval and back to the city for final adoption.

In December the city voted to institute a civil service local and private bill for Waveland.

According to Mayor Stella Frilot, since then the city has looked at similar agreements in neighboring cities and combined their input with the strong points in other agreements.

She said all board members

were asked for input. At the meeting board attorney Lucien Gex said all changes were being put into the draft.

Alderman Stan Weidman voted against the matter, saying he wanted to see a final plan before voting. He said any changes must be made through the legislature.

The board approved the installation of the Fire and Emergency Television Network at the Waveland Fire Department. The cost will be \$188 per month paid out of the fire department's budget. The installation fee of \$785 will not be charged.

Frilot said the program will

update the department on the latest techniques to best serve residents.

The board authorized assistant fire chief Steve Garber and Lt. Louis Prendergast to attend the state Fire Academy for the "Initial Response to Hazardous Material Incidents" program January 24-28.

The Krewe of Nereids parade at 1 p.m. February 6, followed by the Krewe of Hancock parade in Waveland was approved.

The board authorized the mayor to attend the MMA mid-winter conference in Jackson Jan. 25-27 and voted to retain Moore and Powell, CPA as their financial consultant.

 Best Crew in the World

Dear Friends and Co-workers:

In all of our experience and years in the casino business, none of us can remember a better opening or one where the customers were more complimentary. They loved the French Quarter theme, the mimes, clowns and musicians, but that's not what most of the comment was about.

Most of the cheers were for YOU. The people who were cheerful under duress, pleasant under pressure and smiling and happy in spite of aching feet, weariness and "opening night jitters".

What a crew! What a thrill for us to work with people with such a solid work ethic and desire to make the Jubilee Casino the very best on the entire Mississippi Coast. There is a very good test of success, in addition to traffic and customer counts, and that is the expressions on customer's faces. At the Jubilee, people were smiling, laughing and having a great time!

It's because everyone cared. Everyone pulled together. Everyone did their best to make guests feel welcome and eager to come back. We all recognize that we had the best opening ever held on the coast and that business is absolutely booming, but we humbly and respectfully recognize that we couldn't have done it without you.

Thanks for a job well done.

"QUOTABLE QUOTES"

By Ellis C. Cuevas

One thing many of us are looking forward to is the replenishment of our sand beaches in Hancock County. This project has been worked on for many years, as many of us who were on the Hancock Beach Advisory Committee can attest.

In checking my files, I find materials such as a Master Plan dating 1986. So our sand beaches have been under study for a long time.

The first meeting of the Hancock Beach Advisory Committee was March 9, 1988 with 19 persons present.

Since the formation of the Advisory Committee, numerous meetings have been held. Along the way there have been some setbacks, but everything appears to be on go now.

On Thursday of this week, the Hancock County Board of Supervisors is to receive bids on the replenishment of the sand beach.

The amount of sand replenished will depend on the cost per cubic yard for the project. Drainage will also be included.

I am ready and waiting for the appearance of a dredge and seeing the first sand come ashore.

Don't forget the Hancock County Chamber of Commerce's January Morning Edition Friday, January 28.

The sponsor is St. Stanislaus, and it will be held in the school's library at 7:30 a.m.

The chamber's Morning Editions are for chamber members and guests.

St. Stanislaus will be celebrating its 140th anniversary this year, the oldest continuous establishment in operation along the Mississippi Gulf Coast.

I am sure we will be giving you more information on the events planned by Stanislaus on its very prestigious celebration.

FROM THE MISSISSIPPI HOUSE

Prison crowding addressed by House

An emergency bill aimed at helping state correctional officials cope with the pressing issue of prison crowding gained overwhelming approval in the House of Representatives as the legislative pace increased sharply following the first big deadline of the 1994 session.

Most of the emphasis was on committee work during the past week, but several bills already have been called up for floor action. Numerous others have been reported by committees, including teacher pay, a college tuition prepayment plan, strengthening Mississippi's Motor Vehicle Financial Responsibility law, and boosting the minimum age for obtaining a driver's license from 15 to 16.

The corrections bill was recommended by the House Penitentiary Committee as part of a plan to attack overcrowding in prison facilities and local jails and hopefully enable the state to avoid being slapped with heavy fines by a federal court judge.

The bill would permit the medical parole of certain offenders and let the Department of Corrections assign inmates to an electronically monitored "house arrest" program is necessary to satisfy federal court requirements. Officials estimated about 600 prisoners could be released under the bill.

Another bill passed would empower Corrections Commissioner Eddie Lucas to contract with a private firm to furnish medical treatment to offenders. Other bills also are pending in a concerted move to help reduce prison crowding, get state inmates out of local jails, upgrade medical care, and make sure that prison space is available for incorrigible offenders.

A measure was passed to impose restrictions on rate increases by insurance companies that offer health coverage to employees of a small busi-

ness. It applies to employers with 35 or fewer employees and, among other things, would require insurers to make a reasonable disclosure of how premium rates are established, and how health status and claims experience affect the rates.

The House voted to establish extortion as a separate offense under state criminal laws with a prison sentence of one to 15 years; increase jurisdiction of the justice courts from \$1,000 to \$2,000, and revise reporting requirements regarding neglected or abused children to include private as well as public school personnel.

A proposal that would let county supervisors gravel private driveways to provide access by emergency medical vehicles and home health care providers was three votes short of the 2/3rds needed for passage, but kept alive by a motion to reconsider.

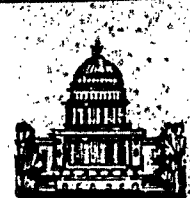

The House Education Committee voted to recommend a pay raise for school teachers that would boost the base starting salaries and tack another year onto the current schedule of increment payments for teaching experience.

Overall, the measure would mean an increase of \$1,500 in the coming year for all certified teachers who have been teaching at least a year.

Other bills approved by various committees in the past week included proposals to raise the minimum age for obtaining a driver's license from 15 to 16; authorize a \$25 fine for violating the state's seat belt law; and establish an alcohol boating safety law.

Please feel free to write to us at the House of Representatives, P. O. Box 1018, Jackson, MS 39215-1018, or call us at 359-3770 in Jackson.

REPORT FROM THE SENATE

Senate debates where to spend budget surplus

The estimated budget surplus continued to dominate discussion in the Senate and around the State Capitol during the third week of the 1994 legislative session.

A steady flow of papers and figures emerged from several meetings and briefings on the state's finances in an effort to identify Mississippi's crucial areas of need.

Informal meetings between Senate and House Budget Committee members brought several opinions to the table for negotiation. Both the Appropriations and Finance Committees believe the unofficial \$306 million figure will become the revised budget estimate. The debate has developed over what amount to spend and what amount to save.

The Senate Appropriations Committee adopted an operating policy to alleviate any complications of the budgeting process for the entire body of state government.

The committee took a figure of \$2,564,171,553 recommended by the Legislative Budget Office as the amount of total general funds available for fiscal year 1995.

Of this amount, the committee agreed to set aside not less than \$56 million into a newly created savings account known as the "Contingent Liability Fund." This step will provide an emergency reserve so that a downturn in revenue would not curtail government services.

Under current law 7.5 percent of the general fund budget goes into a working cash stabilization fund or the "rainy day fund." A bill has been introduced to increase the percentage to 10 percent or more so that monies are not spent for recurring expenses in state government.

At present the rainy day fund contains \$160 million and

should end the year near \$190 million. The state has not been faced with problems concerning a surplus of money so financial issues should be handled with caution.

Several hundred bills have been introduced on many varied topics, but "accountability" and "performance" are the issues addressed in Senate Bill 2995. The bill outlines a plan referred to as the "Mississippi Performance Budget and Strategic Planning Act of 1994."

Monies would not be appropriated to state agencies without their presentation of a five-year strategic plan and proof that the outlined goals have been accomplished by the agency. Data and figures are required to substantiate claims.

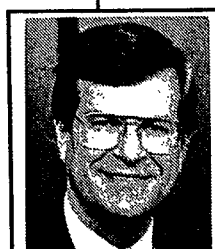

Although there was not much action from the Senate floor, the work agenda included committee meetings and hearings to determine action on general bills and constitutional amendments.

Committee action was taken on some bills addressing: the establishment of medical savings accounts and their exclusion from taxable gross income; prohibiting the distribution of literature for or against any balloted measure within 150 feet of voting polls which came out of the elections committee on which I serve;

Increasing the rebate for city and county fire protection; allow taking of turkey with a bow; and revise membership of Mississippi Commission of School Accreditation.

During the 1994 session I may be reached at P. O. Box 1018, Jackson, MS 39215 or by calling 359-3770. Your questions and comments are always welcome.

FROM THE SENATE

By Senator Trent Lott

We owe our veterans

It is appropriate at the beginning of the new year, as we reflect on what is important to us as a nation, that we remember the sacrifices that our military veterans have made to keep our country strong and free.

Mississippi has a strong system to serve our 23,000 resident veterans, with state operations headquartered in Jackson and long-time established medical centers in Biloxi and Gulfport. Late last year federal funds were approved for the construction of three veterans nursing homes in Oxford, Collins and Kosciusko.

Much of the credit for the success of Mississippi's Veterans Administration system goes to the managers of our different operations, including Jim Caldwell, administrator of the VA Medical Center in Biloxi. Jim retired on January 3 after 39 years of military and VA service, including the 12 years he spent in Biloxi. During his tenure, Biloxi has undergone major facility and program changes to enhance the treatment of veterans.

All Mississippians can be proud of our efforts to provide services and benefits in honor of the tremendous contributions and sacrifices made by our soldiers and veterans. They have helped to ensure our strength, our freedom and our serenity.

We must continue this commitment to afford them the opportunity for quality medical

treatment, educational and job training advantages, a decent home, and hopes for a prosperous future.

Of concern for our newer generation of veterans is the problem Persian Gulf vets are experiencing which they believe are a result of an experimental drug regimen they were administered as pretreatment for exposure to nerve gas.

My colleague U.S. Rep. B. V. "Sonny" Montgomery, chairman of the House Veterans Affairs Committee, has scheduled hearings on these seemingly unique health problems of our Persian Gulf veterans later this month. I am working with Chairman Montgomery, the Department of Defense, the Veterans Administration and the Mississippi Health Department to find out exactly what did happen to our troops and what the extent of their medical problems are so that we can determine a remedy.

This nation owes it to our veterans to find a solution to the medical problems our Persian Gulf veterans are experiencing as surely as we owe it to all our veterans to remember their sacrifice.

Ambulance

Continued from Page 1

Mobile Medic officials said the ordinance at issue makes no mention of any ambulance service, and is a standard, regulatory document similar to others throughout the state. It has been challenged in Hinds County by J&R, unsuccessfully, said Rester.

If J&R could obtain an official certificate of need, Rester said, that firm could operate in the county under the existing ordinance.

Rester said Mobile Medic operates on a response-time

basis that "not once" in 20 years has failed. "In times of hurricanes, in times of natural disasters ... not once, not a single time since 1974 has Mobile Medic failed to respond to whatever needs" there were in Hancock. "If it takes 10 ambulances, that's what we do."

He said the number of ambulances promised to be sitting in any one locale is irrelevant. What counts is response time and quality of personnel, he said.

While Williams claimed

Mobile Medic only has one ambulance in Hancock County daily, Rester and Delahouse said on any given day there may be five or more, dealing with

emergencies and non-emergency calls. They also said they utilize Hancock Medical Center for any patient wishing to be transported there.

Williams insisted her aim is not to put Mobile Medic out of business. She said she only wants to be able to compete

with the company in a free enterprise atmosphere.

Supervisors seemed stunned at some of the statistics that Williams presented, and they were laudatory of Mobile Medic's performance. They questioned the fairness of a competitor making a pitch in the middle of a contract year.

Board President Mike Ladner said he would discuss the contract situation with county attorney Gerald Gex. The board took no action on the matter.

Officials

doubts the local casinos will be hurt when New Orleans gets its long-touted massive casino, although the local casinos draw patrons heavily from Louisiana.

Based on conversations he's had with Louisiana travelers to local facilities, Peterson said fear of crime in New Orleans will keep those patrons coming back to Mississippi.

"They say ... they're afraid of crime" in New Orleans, Peterson said. "They come over here, do their gambling and they go back home. I don't really think gambling in New Orleans will really affect gambling here."

Before Peterson and Stepro's comments, the floor was opened for members to make comments to the association. James Man-

ess, a Gulfview subdivision property owner, urged support for his quest to have a street right-of-way abandoned by the county Board of Supervisors, clearing the way for a sale to the proposed Galaxy Casino.

Maness said he's had resistance in the form of a "bloody blue fit" from one supervisor, who is opposed to ceding the watery property at issue to Maness. The unconstructed street at issue, known as Walker Avenue, is nothing but a duck pond connected to marsh, said Maness. Refusing to abandon the right-of-way, he added is "totally ludicrous, ridiculous."

Galaxy is assembling property to the east of Jubilee for what would become the second casino in the unincorporated area of Hancock County.

Blue Cross offers student art contest

There are no size limits on entries. Any Mississippi student may enter the contest by sending his or her artwork directly to Blue Cross & Blue Shield of Mississippi. First-, second- and third-place winners will be chosen in five entry divisions: Grades 1-3, 4-6, 7-9, 10-12 and college level.

Official rules and entry forms are available at schools or by

calling 932-3704, ext. 4905. Entries are due no later than Friday, March 18.

Bay-Wave accepts 7-12 grade tuition students

BY AMY PICKICH

Bay St. Louis-Waveland School Superintendent Paul Tisdale said Friday the district is now accepting tuition students for grades 7-12.

On Jan. 10 the board rescinded a policy which did not allow tuition students into the district because of high enrollment figures. However, the change applied only to grades 9-12 and was approved contingent upon a decrease in enrollment figures and available space.

Tisdale said the district will now also accept tuition students for 7th and 8th graders since a decrease in enrollment has been verified in both the high school and junior high classes.

Tisdale reported junior high enrollment at 452 in the fall and 441 in the spring. At the high school, 628 students were enrolled in the fall and 610 in the spring.

"There is no magic number as to how many we will accept," Tisdale said. He added that the best thing to do is to call the guidance counselor and inquire, as there may be a limit to some specific classes that are full.

The fee for students not living within the district is \$150 per semester. Tisdale said the fee will be pro-rated for the spring semester since it has already begun.

Tisdale requested the board rescind the previous policy, as enrollment figures are generally lower in the spring than in the fall.

ACS warns about look-alike organizations

Look-alikes and sound-alikes are organizations that adopt names similar to the American Cancer Society. These organizations schedule fund-raising events during the American Cancer Society's annual crusade to share its visibility, respectability, reputation and public awareness.

Here are some useful guidelines to use in determining the viability of a charitable organization:

— Does the charity have an available budget and annual report and an independent audit by certified public accountants?

— Are the group's fund-raising and administrative costs reasonable?

— Does the charity use ethical fund-raising methods?

— Does the charity have an identifiable management and board?

— Does the charity have effective and useful programs? For more information on charitable organizations, contact the following:

OLA stops Greyhounds

BY JOSEPH W. GEX II
The Our Lady Academy soccer team continued its undefeated streak with a 1-0 win over the Ocean Springs Greyhounds on January 19.

It was a tough game for the Crescents due to the weather and the opponent, said Coach Harry Hull. The halftime score was 0-0.

About midway through the second period, Andie Fillingame scored on an assist by Kathryn Scaife.

OLA ended the game more dominant than in the first half. The win brings the Crescents record to an undefeated 12-0-1.

Soccer set to resume

The under-8 division of the Bay Area Youth Soccer Organization is set to begin its spring schedule on Saturday, February 5 at the St. Augustine Seminary field.

Game one, featuring the Sharks and the Hammerheads, is set to begin at 8:30 followed by the Volcanos against the Stingrays at 9:45.

The Blue Marlins tangle with the Renegades at 11:00.

Results of the fall season

found the Sharks in first place with an 11 point lead over the Hammerheads.

The Volcanos and the Renegades were in a tie for third place with 19 points. The Blue Marlins and the Stingrays also finished the fall season in a tie.

The games offer excitement and fun for all involved. Many first time visitors are astonished at the level of play these youngsters have achieved, said a BAYS spokesman.

Bay teachers recognized

BY AMY PICKICKH

Two teachers from the Bay-Waveland School District were recognized last week for their efforts in teaching.

North Bay Elementary third grade teacher Ann Reiss has been awarded the Alan R. Barton Excellence in Teaching Award, given every year to outstanding teachers in the state by Mississippi Power.

According to Mississippi Power spokesman Tim Foley, Reiss was one of four teachers in the state to receive the honor. Five teachers received honorable mention.

Reiss received a \$500 check for herself, \$500 for classroom supplies, \$1,000 for staff development at North Bay and a plaque.

Foley said the winners will be honored at a banquet on March 11.

This is the second year in a row a teacher at North Bay Elementary has received the award. Last year's recipient was Janet Fivash.

Bay High School physics and science teacher Janet Young is also a published author.

Young's article, published in the January issue of *The Science Teacher Magazine*, discusses ways to integrate physics and chemistry topics into everyday life, which are drawn from her own teaching experience.

Bay-Waveland school superintendent Paul Tisdale recognized and commended the teachers' efforts at Monday's school board meeting.

Young, a first-year teacher at Bay High, has over 25 years experience in education. She was honored as a teacher of the month last year by the Bay St. Louis Rotary Club.

ACS warns about look-alike organizations

Look-alikes and sound-alikes are organizations that adopt names similar to the American Cancer Society. These organizations schedule fund-raising events during the American Cancer Society's annual crusade to share its visibility, respectability, reputation and public awareness.

Here are some useful guidelines to use in determining the viability of a charitable organization:

— Does the charity have an available budget and annual report and an independent audit by certified public accountants?

— Are the group's fund-raising and administrative costs reasonable?

— Does the charity use ethical fund-raising methods?

— Does the charity have an identifiable management and board?

— Does the charity have effective and useful programs?

ACS warns about look-alike organizations

Look-alikes and sound-alikes are organizations that adopt names similar to the American Cancer Society. These organizations schedule fund-raising events during the American Cancer Society's annual crusade to share its visibility, respectability, reputation and public awareness.

Here are some useful guidelines to use in determining the viability of a charitable organization:

— Does the charity have an available budget and annual report and an independent audit by certified public accountants?

— Are the group's fund-raising and administrative costs reasonable?

— Does the charity use ethical fund-raising methods?

— Does the charity have an identifiable management and board?

— Does the charity have effective and useful programs?

OLA stops Greyhounds

BY JOSEPH W. GEX II
The Our Lady Academy soccer team continued its undefeated streak with a 1-0 win over the Ocean Springs Greyhounds on January 19.

It was a tough game for the Crescents due to the weather and the opponent, said Coach Harry Hull. The halftime score was 0-0.

About midway through the second period, Andie Fillingame scored on an assist by Kathryn Scaffide.

OLA ended the game more dominant than in the first half. The win brings the Crescents record to an undefeated 12-0-1.

Soccer set to resume

The under-8 division of the Bay Area Youth Soccer Organization is set to begin its spring schedule on Saturday, February 5 at the St. Augustine Seminary field.

Game one, featuring the Sharks and the Hammerheads, is set to begin at 8:30 followed by the Volcanos against the Stingrays at 9:45.

The Blue Marlins tangle with the Renegades at 11:00.

Results of the fall season

found the Sharks in first place with an 11 point lead over the Hammerheads.

The Volcanos and the Renegades were in a tie for third place with 19 points. The Blue Marlins and the Stingrays also finished the fall season in a tie.

The games offer excitement and fun for all involved. Many first time visitors are astonished at the level of play these youngsters have achieved, said a BAYS spokesman.

Bay teachers recognized

BY AMY PICKKICH

Two teachers from the Bay-Waveland School District were recognized last week for their efforts in teaching.

North Bay Elementary third grade teacher Ann Reiss has been awarded the Alan R. Barton Excellence in Teaching Award, given every year to outstanding teachers in the state by Mississippi Power.

According to Mississippi Power spokesman Tim Foley, Reiss was one of four teachers in the state to receive the honor. Five teachers received honorable mention.

Reiss received a \$500 check for herself, \$500 for classroom supplies, \$1,000 for staff development at North Bay and a plaque.

Foley said the winners will be honored at a banquet on March 11.

This is the second year in a row a teacher at North Bay Elementary has received the award. Last year's recipient was Janet Fiveash.

Bay High School physics and science teacher Janet Young is also a published author.

Young's article, published in the January issue of *The Science Teacher Magazine*, discusses ways to integrate physics and chemistry topics into everyday life, which are drawn from her own teaching experience.

Bay-Waveland school superintendent Paul Tisdale recognized and commended the teachers' efforts at Monday's school board meeting.

Young, a first-year teacher at Bay High, has over 25 years experience in education. She was honored as a teacher of the month last year by the Bay St. Louis Rotary Club.

COOKING UP A STORM

By Katy McGuire Caire

Fresh apples a staple in winter desserts

Many of our most fascinating stories, fables and legends are woven around apples. Ever since Biblical times, the apple has played a more important role in human lives and history than perhaps any other fruit. And, in health as well!

The apple was a symbol of immortality to the Persians. King Solomon praised the apple as a healing fruit. Greek and Roman mythology is full of stories about the apple, symbol of love and beauty and good health.

The Scandinavian gods, according to mythology, cherished a miraculous apple tree as the fruit of this tree kept them forever young. When the tree was stolen from them by the evil spirit, Yoki, they grew old and

feeble almost at once; and it was not until the tree was restored to them that they regained their youth!

British folklore is filled with praises of the apple, as is American folklore as well. Remember Johnny Appleseed, who wandered our land sowing apple seeds?

And, the saying that "an apple a day keeps the doctor away." And, even today, we refer to something — or someone — dear to us as "the apple of our eye."

And we do like apples! Apple dumplings and apple pie are among the nation's favorite desserts. And, there's also that easy and so good and popular dish:

APPLE CRISP

8 or 9 medium apples of your choice, peeled and sliced
1 Tbsp. cinnamon
1/2 stick butter or margarine, slightly softened
1/2 cup flour
1/2 cup sugar

Preheat oven to 350 degrees. Place a layer of sliced apples into pan or casserole, sprinkling with cinnamon. Top with another layer of apples, again sprinkling cinnamon, until all apple slices are used.

In a bowl, cream together with a spoon the butter or margarine, flour and sugar. Spoon evenly over apples. Bake for 30 to 40 minutes.

Serve warm with cream or whipped cream or topping. (4 to 6 servings)

Volunteers needed

Gulf Coast Women's Center will train you to help others

The Gulf Coast Women's Center provides temporary shelter for battered women and their children, operates a preschool for the younger children, and assists victims of sexual assault.

Their 24-hour crisis line means that any person who is the victim of domestic violence or rape is able to reach out for help at any time of the day or night and receive an immediate response.

Volunteers must be compassionate, non-judgmental, people who are good listeners. Staff and volunteers work together to provide the needed assistance in the different areas the Center provides to those it serves.

The main requirements for being a crisis line volunteer is to realize the seriousness of the situation and to make a commitment to the program.

Volunteers who work on the crisis line usually work one week every other month and are required to work only in the county in which they live. They receive calls in their homes during the evening hours and weekends, and are provided

with a pager so they can continue their regular routine.

Volunteers are not only needed to maintain the crisis line, but also in a variety of other ways. In the pre-school, the Center needs specialized volunteers such as art and music therapists, as well as volunteers who work with the everyday activities that occur.

The infant stimulation program continues to focus on small children with special needs.

Child care providers are needed Monday and Thursday evenings so women can attend

groups for education and support in their new life.

Clerical help is always needed with letter writing and mailing out the newsletter.

Prospective volunteers are provided with two full days of certified training to prepare them for this important work. The training will take place in April on the Gulf Coast.

Anyone interested in volunteering for the crisis line or any of the other programs provided by the Gulf Coast Women's Center are requested to call Sherry Barwick at 435-1968.

ers to join in a day of prayer and fasting January 25, 1994."

Honeymoon

Your dream vacation within reach with careful planning

These days, every dollar counts. But still, scrimping on the ultimate "dream vacation" — the honeymoon — seems just a touch, well, unromantic.

Enter "30 Smart Honeymoon Cost-Cutters" in the June/July 1993 issue of BRIDE's Magazine, a round-up of expert advice and clever strategies on how to save without sacrifice.

"Emotions often get in the way of smart spending when planning a honeymoon," explains Sally Kilbridge, Travel Editor of BRIDE's & Your New Home. These practical steps encourage couples to set a 'honeymoon price tag' within their limits."

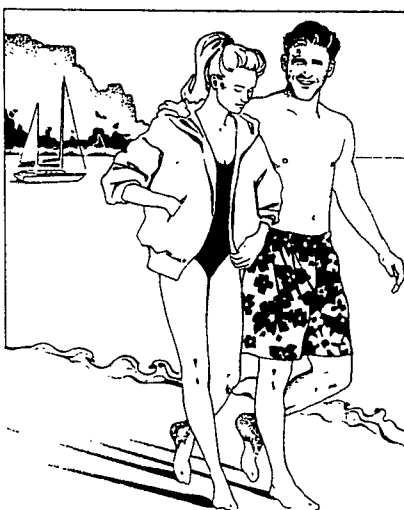

A few pointers from BRIDE's collection of valuable cost-cutters:

- Book your airline's fly-drive package if you're headed to Europe. Doing so will help you save substantially on the cost of a rental car.

- Research destinations with "shoulder-season" rates (between high and low season). For November newlyweds, the Caribbean is an economically wise choice; the Greek isles are ideal in May and October.

- Jump at a honeymoon package offering significant amenities such as a room upgrade or rental car. But think twice before paying extra for frills like a bottle of champagne, a fruit basket or a honeymoon photo album.

- Find a lovely country inn within driving distance of home and spend your days browsing antique shops; you'll have the money to treat yourself to a

newfound treasure while enjoying a cozy — and affordable — romantic getaway (book early; the most popular inns can fill up a year in advance!)

- Determine how much you can afford to spend daily (sub-

tract travel and hotel costs; divide the remainder by the number of days you'll be away) and prioritize what you want to do with your funds.

- Don't even think of touching the hotel's minibar — consuming the peanuts alone can add an extra \$20 to your bill.

- Exchange money only in banks in a foreign country; a hotel's rate is usually higher. Over the course of a week, saving a fraction of a percentage can add up to a lunch for two.

- Pack enough film, toothpaste, suntan lotion, reading material — these items can cost double at a hotel's sundries shop.

- Register for your honeymoon if your travel agency has a bridal registry, so family and friends can contribute to the trip. (Etiquette note: Never announce where you're registered on the invitation; ask rela-

Role of the bride's father

Fathers have traditionally remained inconspicuous and silent during weddings, preferring perhaps to leave the details of the event to the family's women. But they have changed over the years, and today many take active roles in the weddings of their children.

Here are some time-worn traditions, as well as new ideas, so your dad can have a hand in giving you away, and in making your wedding day memorable.

Bridal consultant

Let a professional help you plan a perfect wedding

Selecting a professional bridal consultant to assist in planning your wedding is no longer a luxury, but a life-saving necessity. A reputable consultant can save you time, money and needless worry as the big day draws near.

Establish a realistic budget. Decide how much money you have to spend and divide that amount by categories.

• Invest in a complete wedding planner.

• Include your groom in the planning.

• Confirm dates and times with all your wedding professionals by telephone the week before the wedding.

• Expect something to go wrong — it always does!

• Don't assume that the florist, photographer and caterer know you've selected them. Signed contracts and a paid deposit are your only guarantee.

• Unless they are professionals, never hire a friend or family member to provide such services as photography, cake baking or flower arranging.

• Have your wedding consultant check that the colors, theme and music you've selected complement each other.

• Don't skimp on the photographer.

• Consider posing for some pictures before the marriage ceremony, allowing you and your groom to join the reception immediately.

• Obtain all estimates for services in writing.

• Keep detailed records on every aspect of the celebration.

• Be specific — from what type of flowers you want to what time the limousine driver should pick you up.

• Plan as far in advance as you can.

• Eat a light snack before you dress for your walk down the aisle.

• Stand up for your rights. Be

a good listener and gently remind mothers and in-laws that it's your wedding day.

• Research and utilize proper etiquette.

• Consider taking your formal photographs at the reception instead of at the church or synagogue.

• If possible, don't pick up your gown until the day of or the day before the wedding. The fewer times you handle it, the fresher it will look.

• Prepare for the wedding party and your family a detailed outline of all events surrounding the wedding, including a map if necessary.

• Take small amounts of lots of things to the church or synagogue — aspirin, static guard, tape, thread, hairspray, pins, etc.

• Stay organized. Keep everything in one place, such as names and addresses of guests, cancelled checks as receipts, signed contracts.

• Decide who will be financially responsible for each of the festivities.

• If you desire to have a live band at the reception, consider a buffet food service instead of a sit-down dinner. This gives you and your guests more time to enjoy the music. If you do have a sit-down dinner, pace the courses with dancing in-between.

• Reconfirm your limousine service several times in the months prior to your wedding.

• Provide your groom and his groomsmen with a tuxedo

checklist to make sure they have all the pieces they need — especially cuff links, studs and the bow tie.

• In addition to telling the music director for the reception

Personalizing your ceremony

Meaningful gestures make your wedding more memorable

Today, more and more couples are composing their own, or a portion of their own, ceremony. There are a number of ways you and your fiancé can add that personal, creative touch to your wedding.

— Write your own vows or change some of the words of traditional vows.

— Write a special poem or prayer for your partner. Recite it during your ceremony. Many couples ask close relatives or friends to read poems, scriptures or to recite blessings at the ceremony.

— Have a favorite piece of music played or sung... something that is especially mean-

ingful to both of you. Walk down the aisle to the music your mother walked to, and make it a surprise.

— Surprise your fiancé by singing an especially meaningful song, expressing your feelings. Have the words printed and distributed to your guests so they can join you.

— Print a program for your guests, including the names of your attendants. A brief summary of how you met or a message of appreciation to your guests from the two of you would add a special touch.

— Incorporate symbolism in some way by carrying a family Bible, handkerchief or fan that was carried by your or the groom's mother.

— Honor both of your heritages by incorporating some of your cultural ancestry and tradition into the ceremony. Adapting them to your celebration will add that special touch for family and friends, as well.

— Surprise the mothers: as you walk down the aisle, pause to present a flower from your bouquet to your mother and another to his mother.

— For interfaith marriages, many couples decide to bring a combination of both religions to the celebration.

— If a parent is deceased, symbolically include them by lighting a candle during the ceremony, carrying their favorite flower or leaving a bouquet on an empty first-row seat.

— As an alternative to being "given away," the Acceptance Ceremony provides that the bride's family "accept" the groom, and vice versa.

Designated family members are asked, in advance, to express words of acceptance.

Others may choose to join in after the originally chosen members have spoken.

Bridal Shower Ideas

Are you stumped for an idea for a really nice shower for a friend or relative? There are many possibilities. Themed showers are practical and very popular today. A theme is especially nice when there is to be more than one shower. It can prevent duplicates.

Lingerie Or Personal Showers

These showers are fun. Gifts can include all the beautiful things most people don't buy for themselves. They help prepare the trousseau for the honeymoon. Gifts may include lacy nightgowns, camisoles, sexy underwear, bras or a nice robe. Other items may be perfume, bath accessories or earrings. Or buy a pretty frame and get a baby picture of the bride's fiancé from his mother. It will not only surprise the bride, but will be something to cherish for years.

Linen Showers

You may want to let everyone know the

color scheme. It can be helpful for the couple to register in a department store for items such as monogrammed towels, a scale, bathroom sets, sheets, pillows and blankets.

Kitchen Showers

This is a great shower, especially if it's co-ed. Gift ideas are endless and range from small and inexpensive to larger, fancy appliances. Browse through any kitchen store or department store again; it would be helpful for the couple to register for needed items. One fun idea is to have each guest bring a favorite recipe along with one item needed for its preparation. Some examples: chocolate chip cookies with the cookie sheets, Quiche Lorraine with a quiche dish. The hostess may provide a recipe box to put the recipes in, or write them in a book designed for this, entitled *The Private Cookbook*.

The Diamond Dilemma

Choosing the perfect engagement ring is not an easy task. With so many sizes and styles to choose from, it is hard to pick the one you'd like to wear for the rest of your life. Beverly Clark, author of *Planning A Wedding To Remember*, explains the criteria to consider when selecting a diamond:

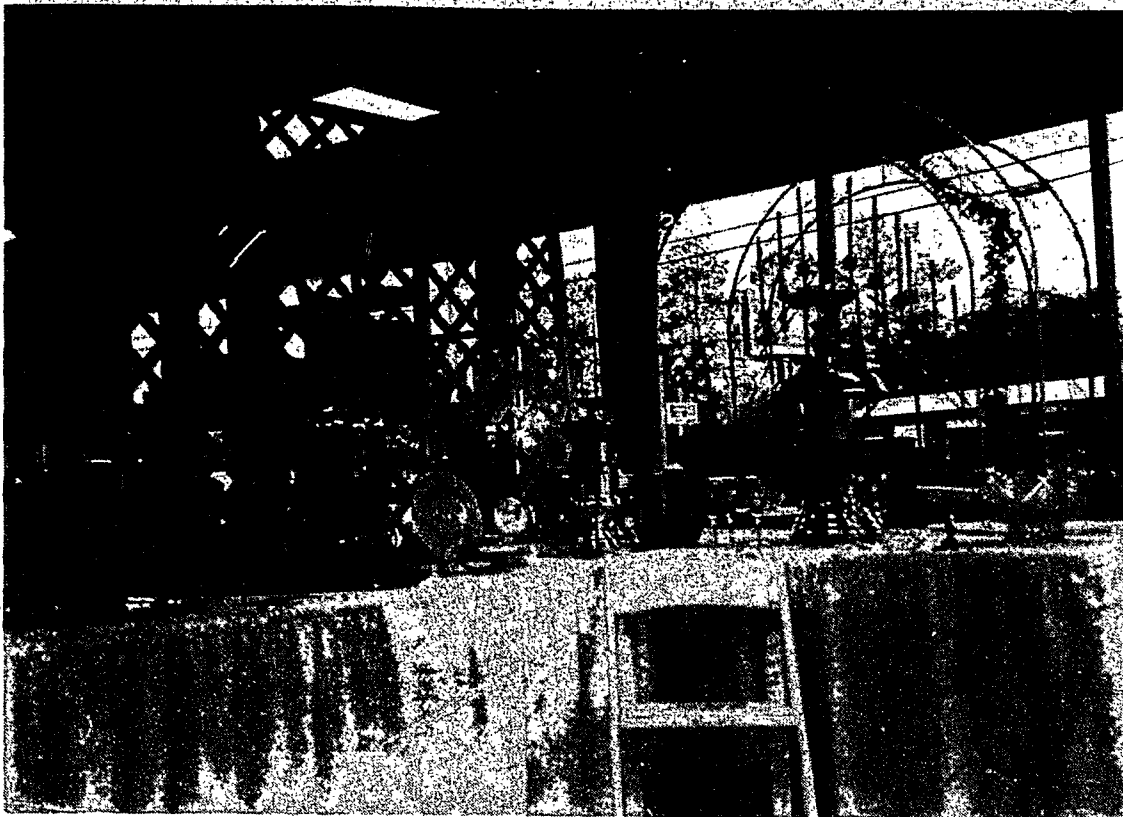

Color—The clearer the diamond, the greater its value. Diamonds are graded on a scale: The greater the degree of color in the stone, the lower the stone's value, with the exception of very rare colored diamonds which are extremely valuable. Clear or colorless stones are referred to as perfect.

Cut—Accuracy in cutting is essential to the beauty and sparkle of the diamond. The stones are proportioned and faceted to maximize the brilliance through their crowns. The brilliant or round cut is the most common. Other shapes include

oval, pear, marquise, emerald cut and heart-shaped.

Clarity—This is the term used to describe the degree of inclusions when the stone is magnified ten times. Inclusions are interior or exterior flaws. If they are large and noticeable without a magnifying glass, they will affect the beauty of the stone; otherwise, they will only affect the value. Flawless or perfect stones with no imperfections are obviously the most valuable and expensive.

Carats—This is the size of the diamond. Color, cut and clarity determine the per-carat value. A higher-quality, smaller diamond may be worth more than a lower-quality, larger stone. As the size increases from one carat to over two or three, the price per carat increases tremendously when the stone is of equal quality.

The perfect gown

Shopping tips for selecting the dress of your dreams...

- * Begin the search for your dream gown as soon as you've become engaged, allowing at least four to six months for delivery of the gown and headpiece.

- * The type of marriage ceremony you are planning and the time of day it takes place will determine the proper style of wedding gown.

- * The secret to perfect wedding dressing is discovering your true figure type. Enhance your best qualities and disguise any problem areas with the most flattering style available.

- * If your lower body is wider than your upper body, a full skirt minimizes heavy legs and hips.

- * An elongated waistline adds extra height.

- * Avoid straight skirts and bulky styles if you're bottom-heavy.

- * If your body is long and narrow, select a full skirt with horizontal detail that will add width.

- * A sleek bodice will balance a flowing skirt.

- * A strapless gown reveals the shoulders and is usually worn with a bolero or jacket during the ceremony.

- * Your shoulder line will be broadened by a gentle neckline.

- * A fitted waist creates feminine definition for a narrow form.

- * Shy away from high or dropped waists if you're long and lean.

- * If your upper body is wider than your lower body, look for a skirt with special interest that

will call the eye downward.

- * A simple, yet elegant, bodice minimizes the upper body.

- * A modest neckline will reduce the upper body width.

- * In order to achieve a proportional look, avoid narrow skirts and extremely high necklines if your upper body is wide.

- * If you were blessed with feminine curves, a deep neckline will accent the bustline.

- * An open neckline will flatter your shoulders.

- * A tiny waist is nicely emphasized by a fitted waistline.

- * If your body is curvaceous, use detailing on either the upper body or lower body but not both.

- * Take the time to enlist the assistance of a full-service bridal salon to help you look your very best on your wedding day.

- * Choose a shade that most flatters your skin tone. "White" can also refer to candlelight, ivory or winter white.

- * Quality construction of your gown is a must — note that the buttons, pearls and other trims are attached securely.

- * A gown with an attractive back, such as a butterfly bow or charming bustle, will ensure that you look your best from every angle.

- * Your train will make a wonderful lasting impression as you glide down the aisle. There are three popular styles: the sweep-length is the shortest and lightly brushes the floor. The chapel-length train extends about one-and-a-half yards from the waist. And for the most formal

of weddings, the cathedral-length train extends three yards from the waist.

- * Many trains are detachable and can be removed later for dancing at the reception. Or, check the ways your train could be bustled.

- * Veils also vary in length. A blusher is a simple layer of veiling worn over the face before the ceremony and lifted back by the groom during the vows. Other popular styles include the elbow-length, fingertip-length, and pouff, which is gathered veiling attached to the back of the headpiece.

- * At each fitting, bring along the shoes, or ones of similar height, that you will wear on your wedding day.

Gown

Continued from Page 9

* Your wedding attire will fit perfectly if you also select the proper undergarments. Many gowns will require a special bra, and you'll want to wear it at every fitting.

* Remember that your alterations will need to be complete in time for your formal portrait sitting, usually done a month before the wedding.

* There are a variety of fabrics to choose from, depending on the season and mood of your celebration. For example, a brocade for a formal look, chiffon for a light and airy feel, or organza for a crisp, romantic style. Remember that the quality of the fabric will affect the cost of the wedding gown.

* Never order a dress that you have not actually seen. This is no time for surprises.

* Always inquire about the store's policy on custom fitting. A quality fit will be worth the price you pay.

* Your headpiece should be chosen carefully since it pro-

vides the final touch to your ensemble. Styles vary and may include dramatic fur headpieces or stylish hats; classic pearl or lace headpieces; romantic floral wreaths or simple headbands. Choose a design that frames your face beautifully!

* Carry your checkbook when you shop so that you are ready to provide the 50 percent deposit required by the bridal salon to place an order for the dress of your dreams.

* Inquire when the balance is due; some shops require final payment before starting any alterations.

* Choose dresses for your attendants with consideration of the lines and fabrication of your gown. The looks should be compatible.

* Be considerate of your bridal consultant's time and respectful of her experience. Plan to write a thank-you note to her and perhaps present her with a small gift as a token of your appreciation.

Formal invitations involve planning

Invitations are one of the many decisions a bride must make, and one she should consider early in the planning stages of her wedding.

Traditional formal invitations are engraved and must be ordered approximately two to three months prior to the wedding date. Printed invitations require less time to process, but should be chosen no later than two months before the event.

Wedding invitations require two envelopes which must be hand addressed, and the bride must allow herself time to complete the task for mailing three to

four weeks before the wedding date.

The outside envelope should be sealed, while the inside envelope is not. The outside envelope may carry the sender's return address, embossed in the flap or handwritten.

The outside envelope should carry a complete address, as Mr. and Mrs. John Smith

210 Broad Street
Centerville, Georgia

This inside envelope should read:

Mr. and Mrs. Smith
It is incorrect to address an invitation to "Mr. and

Mrs. John Smith and Family." Separate invitations should be sent to sons or daughters old enough to receive them, or the names may be added to the inside envelope.

The inside envelope should be faced towards the back of the outside envelope when inserted, according to Crane stationery spokesmen.

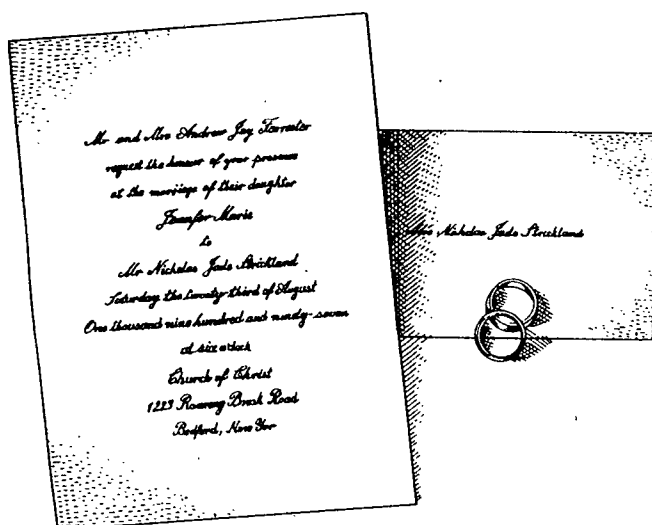

The wording of the invitation may be selected by the

bride. A traditional form is:

Mr. and Mrs. John Claiborn Smith / request the honour of your presence / at the marriage of their daughter / Elizabeth Claire / to / Richard Lawson Bridges / on Saturday, the tenth of November / at seven o'clock / St. Thomas Episcopal Church / Centerville, Georgia
